Volusia County Schools Launches New Mobile App

DELAND – The latest news and information from Volusia County Schools is now available on smartphones and mobile devices with a new mobile app. In partnership with Blackboard, Volusia County Schools is expanding its communications outreach with a mobile app that is now available in the iTunes® and Google Play® app stores for free.

With the new mobile app, users can sign up to receive important notifications from each individual school and the school district. Some other great features included on the mobile app are Gradebook, the School Way Café menus for the current and upcoming months, and the district-wide calendar — among many other features.

“Keeping our community engaged with the schools and school district is a priority,” said Tom Russell, superintendent of schools. “Our new mobile app does just that, as the many features included will allow parents, students and the rest of the community to stay updated about great things happening here in Volusia County Schools.”

Parents and the public are encouraged to download this free mobile app to their smartphones at: [iTunes](#) or [Google Play](#).
