

FLORIDA BOOTCAMPs

June 25-26 8:00-3:30 Atlantic High School

The Florida Bootcamps are two-day, deep-dive trainings offered in math and ELA at every grade level, focused on the most challenging content of the grade. Florida Bootcamps benefit teachers that need to dig deeper into content (what to teach) and content pedagogy (how to teach that particular content). Those include new teachers, teachers changing grades or subjects, textbook selection committee members that need to make an informed choice, and veteran teachers ready for a stretch.

Florida Bootcamps are about teachers leading their fellow teachers. Our Content Coaches are expert educators who understand the challenges firsthand. They receive extensive training in their content area and go through a competitive selection process before joining our Bootcamps team.

The price for Bootcamps is **\$600/seat**.

After May 15, seats are \$650 to cover the additional cost of rushed materials.
