2019 Regional Professional Development Registration Form

SHAPE Florida is offering a **FREE** OPEN Professional Development workshop to all members. If you are not a current SHAPE Florida member the cost is \$60.00, which includes one year of Professional level membership. **If you are not a current SHAPE Florida member you can join at <http://shapefla.org/>**

OPEN launched in March of 2015 as a free public service of US Games. Since that time more than 11,000 teachers have become OPENPhysEd.org Members and have downloaded more than 150,000 curriculum documents. Through this public service, US Games has positively impacted the physical education and activity experience of more than 5.6 million students and has given away over \$7 million in curriculum resources.

Additionally, GeoFitness is a program developed by Debby Mitchell using light-weight mats to teach students basic movement patterns, geography, math skills and more. Each participant will receive a class set of mats, up to 50 mats per person, for attending the workshop.

Summer Workshop Details:

July 23, Mainland High School, 1255 International Speedway Blvd., Daytona Beach, 32114

- Sign-in begins at 8:30am

OPEN Professional Development Overview

OPENPhysEd.org

OPEN nationally recognized trainers will customize your professional development day to meet the unique needs of your teachers, activity leaders, and the students they serve.

As a public service organization, OPEN is dedicated to providing rigorous and responsive curriculum tools to all physical educators. Our content and trainings are outcomes-based and are built upon curriculum research and best-practices that align with the most recent work in career-readiness, 21st century instruction, and teacher evaluation.

Each workshop is hands-on, physically active, professionally engaging, and FUN!

Teachers/activity leaders will examine how OPEN fortifies and supports instructional strategies to ensure student learning and a create positive movement environment.

Critical Concepts Include:

- Academic Language Tools
- Tiered Questioning Techniques
- Academic Rigor Strategies
- Social & Emotional Learning
- Best Instructional Practices
- Managing Large Class Sizes
- Universal Design Adaptations

We provide on-site professional development as a paid service and are committed to keeping costs controlled in ensure maximum accessibility. As a part of this effort, the OPEN training team provides outcomes-based professional development linked to the free curriculum tools provided at OPENPhysEd.org. These tools are aligned to the National GLOs and Standards set by SHAPE America.

We engage award-winning teachers with real classroom experience as our trainers and content developers. Our trainers include state, regional, and national teachers of the year. They are recognized content authors who are active in professional organizations. Their primary mission is to engage authentically with teachers in order to improve instructional outcomes for students.

The Core Values of OPEN

1) Teacher & Student Empowerment

- Teachers need diverse solutions for their unique teaching environments.
- All students need curriculum and programs that address a range of abilities & interests.

2) Equity of Access

- Every student deserves a highly effective physical education experience.
- All teachers deserve access to the highest quality resources and professional development experiences.
