

CROSSPOINTE TECHNICAL ASSISTANCE PAPER

HOW TO VIEW AND PRINT LEARNFARE STUDENTS (Panel S701 – Program Query)

The purpose of this technical assistance paper is to provide you with instructions for identifying your Learnfare students for appropriate follow-up. As you are aware, in 1993, the Learnfare Program was enacted in Florida. The program sets forth educational requirements that must be met in order for a person to maintain temporary cash assistance (TCA) under the federal Temporary Assistance for Needy Families (TANF) Program without a reduction in assistance.

The Learnfare Program requires:

- Each teenage TANF participant or a TANF participant's school-aged child to remain in school and not be identified as a habitual truant or dropout.
- Each TANF participant with a school-aged child to attend a conference each semester with a school official to ensure that the participant is involved in the child's educational progress and is aware of any attendance or academic problems. The conference may be a face-to-face meeting or a telephone conversation and must be verified by the Department of Children and Family (DCF). The conference must address acceptable student attendance, grades, and behavior and must be documented by the school and reported to DCF. Verification of the school conference requirements is satisfied when the participant submits the **Learnfare School Conference Verification form – CF-ES 2098** (*see sample form on page 5*).

For detailed information regarding Learnfare, please see the Learnfare Program Attendance Manual provided by the School Social Services Department.

The following are procedures for viewing and printing Learnfare student records at your school.
