The Importance of School Attendance

Having good school attendance
is a great thing to do.

The more you go to school,
the better life gets for you.

A great education
is what we all need.

It helps you get to college
and be what you want to be.

School is really important
and makes your family proud.

They will smile and be happy
and not want to frown.

So always go to school,
try not to miss a day.

So you don't throw
your education away.

You can help others to see
that school is the place to be.

Everybody, Every Day!
