

Application for ROBOTICS Course

DUE to Mrs. Ling by May 31st

Student Name _____ Date _____

Grade Next Year _____ Alpha _____

The Creekside Robotics course provides students an opportunity to learn computer programming, develop problem-solving skills, and design robots all in a collaborative team-building environment. Students participating in the class have the opportunity to expand their experience by trying out for the school’s First Lego League teams that meet after school and compete on weekends.

What experiences do you have with computer programming and Lego robotics?

What experiences do you have working with a partner or on a team?

Why do you want to be in this class?

Attach two letters of recommendation – one from your math teacher and one from your science teacher.

Parent Signature _____ Date _____
