

## **IDEA Academy**

Deltona Middle would like to introduce our newest Academy, the Innovative, Design, Entrepreneurship and Advertising Academy, also known as **IDEA**. The IDEA Academy prepares students for success in a wide range of careers related to business such as entrepreneurship, manufacturing, management, finance, sales, leadership, and more. Students will build collaborative relationships with core academic classrooms incorporating cross curricular opportunities and skill building.

The IDEA Academy offers project-based coursework and hands-on training to support students and ignite a passion for learning.

Courses in business education will prepare students to own their own manufacturing business while maintaining accurate accounting and inventory records, while promoting creativity, design, creation and sales.

The IDEA Academy will teach students the skills, knowledge, and experience necessary to become business leaders who excel in our ever-changing global economy.
