

Turie T. Small Elementary

Physical Education

The fundamental purpose of the physical education program is to provide opportunities for the development of motor skills and physical fitness.

All PE activities are utilized to successfully create an exciting and enjoyable learning experience. The activities focus on basic skills and are designed to accommodate various learning abilities. We provide a variety of strategies using supplies and equipment that motivate kids to learn, play and have fun.

The PE curriculum is designed for 100% success and 100% participation. Our aim is to give simple rules, maintain high expectations and encourage students to try their best, while providing positive choices to get positive results.
